

# ROHIT MAHAR

## Frontend Developer | React • Next.js • Performance Optimization

Mumbai, India | [therohitmahar@gmail.com](mailto:therohitmahar@gmail.com) | [linkedin.com/in/therohitmahar](https://www.linkedin.com/in/therohitmahar) | [github.com/Therohitmahar](https://github.com/Therohitmahar)

---

### Professional Summary

Front-End Developer with 2+ years of experience building scalable, high-performance web applications using React.js, Next.js, Redux Toolkit, and modern JavaScript. Proven ability to optimize frontend performance, create reusable component architectures, and deliver production-ready features through close collaboration with backend and design teams.

### Experience

#### Front-End Developer – LineupX (April 2024 – Present)

- Developed a production-grade online assessment platform with screen recording and facial recognition, reducing cheating by 50%
- Built reusable React components and custom Redux hooks, doubling feature development speed
- Optimized application performance using memoization and caching, reducing unnecessary re-renders by 50%
- Integrated Chart.js to build interactive analytics dashboards
- Built internal tools including credential management, component libraries, email archival, and OTP retrieval systems
- Enhanced a React Native application with reusable bottom sheets and REST API integrations
- Led internal technical training sessions and participated in technical interviews

#### Front-End Developer Intern – LineupX (November 2023 – April 2024)

- Worked on AI-driven SaaS features using React.js, Next.js, SCSS, Chart.js, and React Table
- Converted Figma designs into responsive, mobile-friendly user interfaces
- Integrated Redux for state management and assisted in debugging and performance improvements
- Converted to full-time based on performance

### Projects

#### Meesho Clone – React.js, JavaScript, HTML, CSS

- Built an e-commerce application with search, filtering, pagination, cart, and checkout flows

[GitHub Repository](#) | [Live Demo](#)

#### Budget Tracker App – React, JavaScript, HTML, CSS, Bootstrap

- Built CRUD features with localStorage persistence and budget visualization

[GitHub Repository](#) | [Live Demo](#)

#### Dictionary App – HTML, CSS, JavaScript

- Integrated external API with history tracking and word suggestions

### Skills

**Frontend Technologies:** React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

**State Management & APIs:** Redux Toolkit, Context API, RESTful APIs, Axios, Fetch API

**Tools & Libraries:** Chart.js, React Table, Git, GitHub, npm, Webpack

**Best Practices:** Performance optimization, memoization, code splitting, lazy loading, responsive design, cross-browser compatibility, accessibility (WCAG), semantic HTML

### Education

Bachelor of Computer Applications – Chandrabhan Sharma College (2018–2021) – 79%

### Achievements

- Second Prize – Error Hunt Competition
- 93 Percentile – MCA Entrance Examination
